The information obtained by Stanislaw had confirmed that the outside entrances to the complex, which had already been bypassed, were the most strongly guarded, and the three inner access points to the Communications Center itself- the main foyer at the front, the rear lobby, and a side entrance used by the staff-were covered by less formidable, three-man security teams. The problem with these security teams lay not so much with the physical resistance they might offer, but with their ability to close the Communications Center's electrically operated, armored doors and raise the alarm at the first sign of anything suspicious, which would leave Sirocco's force shut with no hope of achieving their objective and facing the bleak prospect of either fighting it out or surrendering to the guard reinforcements that would show up within minutes. On the other hand, if Sirocco could get his people inside, the situation would be reversed.. "Wanting to save your husband would be far from strange, and a noble sentiment indeed . . . if it were true. But is it true?". "Isn't she a lot of fun," Kath agreed. "She's talking Casey into teaching her to be an architect. She could do it too. She's an intelligent woman. Have you known her long?". Through clenched teeth that squeezed each sibilant into a hiss, she said, "Hag of a witch bitch, sorcerer's.wild beast. Her throat felt scorched. Her raw voice didn't sound like her own: wordless, thick, hideous.that graphic..my business, and you'd hustle me back to my own yard..".Then, slowly, she realized what her mind had responded to unconsciously in the faces of the three children in the Chironian sculpture. The artist had been not merely an expert, but a master. For fear was there too, not in any way that was consciously perceptible, but in a way that slipped subliminally into the mind of the beholder and gripped it by its deepest roots. That was why she had felt disturbed all the way back from Franklin. But there was still something else. She could feel it tugging at the fringes of awareness-something deeper that she hadn't grasped even yet. She turned her eyes to the sculpture again.. "If you say so. Do I have a choice?". The Orderly Room was chaotic as Sirocco, Maddock and Sergeant Armley from First platoon were trying to put out what looked like a fire of flashing lamps on the emergency companel when Colman stuck his head round the door less than half a minute later. "What the hell's going on?" he asked them..Micky sat at the table again. "Where did Lukipela disappear?". "Those methods were appropriate before this phase, change," Pernak answered. Yet even."Worming your way into ..." Micky fell silent, surprised by what she had been about to say.. "Well, there's a general and a few other Army people," Juanita said after a moment's thought. "And from Engineering there's a . . . Merrick--Leighton Merrick, that's right." She looked at Nanook. "And one called Walters." "I ,, don't know," she replied, faltering, trying not to remember that she had told Howard she would catch a morning shuttle down and had the key to Veronica's apartment in her pocketbook..It was after 0400 hours, local, when Colman returned to the room which he shared with Hanlon in the Omar Bradley Block, which in the system of twenty-four Chironian "long hours" day was about as miserable a time of day as it was on Earth. With the room to himself since Hanlon was on night duty, he crawled gratefully between the sheets without bothering to shower to make what he could of the opportunity to sleep undisturbed until his call at 0530..she asked, "So why're you there? A chill quivered down her spine, But she felt also the trapdoor in her mind straining as a need that lay imprisoned behind it, and which she was still not ready to face, responded. Sterm's eyes were challenging her to deny anything that he had said. She was unable to make even that gesture..except once in a while she says what an intolerant and uptight bunch of poop vents they were?though..The aircraft touched down softly, and a pair of double doors slid open halfway along the side nearest to the reception party. A tall, burly, red-bearded Chironian wearing a dark parka with a thick belt buckled over it jumped out, followed by another, similarly clad but more slender and catlike. More figures became visible inside when the cabin light came on. While the Company medic began cleaning up the injured and Sirocco stood talking with the SD commander a short distance away, Colman watched Kalens's limousine drive away in the opposite direction and disappear. That was how it had always been, he could see now. For thousands of years men had bled and died so that others might be chauffeured to their mansions. They had sacrificed themselves because they had never been able to penetrate the carefully woven curtain that obscured the truth-the curtain that they had been conditioned not to be able to see through or to think about. But the Chironians had never had the conditioning..Celia was already prepared for it. She nodded. Nothing remained to be said. The room had become very quiet..to flush the wounds with antiseptics. Then, Sinsemilla might feel differently about seeing a.circling the truck-stop complex, and into the civilian car park where no big rigs are allowed, the boy.A carrier full of combat-suited infantry nursing antitank missile launchers and demolition equipment slid through the lock and lurched onto a branch leading to one of the Battle Module's forward ramps. "Well, we've got a clear run all the way down one feeder, and we're moving into the others," Colman replied. "There's been some fighting inside the Battle

Module, and a lot of the guys got out. We have to hope that there aren't enough left to stop us from blowing our way in through four places at once. Just tell Borstein to keep sending through all the heavy stuff he can find, as fast as he can get his hands on it." Micky cocked her head and frowned skeptically. "I'm not sure I should believe anything you tell me." A tense silence fell. Then Jay said, "I know at least one person in the Army who we can trust." The others looked at him in surprise. Waving her hands in the air as a gospel singer waves praises to the heavens while shouting hallelujahs. Two hundred thousand miles away on the rugged, pockmarked surface of Chiron's other moon, Romulus, two enormous covers, whose outer surfaces matched the surrounding terrain, swung slowly aside to uncover the mouth of a two-hundred-foot-diameter shaft extending two miles vertically through the solid rock. The battery of accelerator rings in the chambers surrounding the base of the shaft was already charged with dense antimatter streams circulating at almost the speed of light. The dog sits up straighter and pricks her ears, as if to say that she, too, is well informed about such. Bernard shrugged helplessly. "I know. It's a chance-but what else is there?" bad idea. Old Sinsemilla didn't want you to become a member of the cast; you were expected only to. "What?" Bobby asked, genuinely surprised by the insult, even though his index finger was still wedged in. Hanlon made a throwing-away motion in the air. "Ah, this is all getting to be too serious for a Saturday night. Why are we talking like this at all? Are we letting silly rumors get to us?" He looked at Sirocco. "Our glasses are nearly empty, Your Honor. A round was part of the bet." on TV? that show, America's Funniest Home Videos. The rhythmic thuds of marching feet died away and were replaced by the background sounds of daily life aboard the Kuan-yin--the voice of a girl calling numbers ~ of some kind to somebody in the observatory on the level above, children's laughter floating distantly through an open door at the other end of the narrow corridor behind Driscoll, and the low whine of machinery. A muted throbbing built up from below, causing the floor to vibrate for a few seconds. Footsteps and a snatch of voices came from the right before being shut off abruptly by a closing door. "A real pro burglar Terry exclaimed. "You son-of-a-gun." Hanlon said admiringly. Gen sighed. "Rolling blackout. Third World inconvenience with the warm regards of the governor. Not. As in Leilani's own closet, a tubular-steel pole, approximately two inches in diameter, spanned the. "For a long time," Colman said. On the threshold, gripping the doorknob, she glanced back to see if the snake pursued her. It remained. "Even though he kills old ladies and boys in wheelchairs?" she stubbornly clings. The boy worries about the reliability of her animal instincts. This time, Micky resisted being charmed. "That's not funny, Leilani." Swyley was looking distant and thoughtful behind the thick spectacles that turned his eyes into poached eggs and made the thought of his being specially tested for exceptional visual abilities incongruous. He was wondering how useful Stanislaw's nefarious skills might be for inserting a few plus-points into his own record in the Military's administrative computer, but couldn't really say anything about the idea in Sirocco's presence. There was such a thing as being too presumptuous. He would talk to Stanislaw privately, he decided. reborn, only nine and a return to Notre Dame still years away. ON THIS, THE eve of the last Christmas that we shall be celebrating together before our journey ends, I have chosen as the subject of my seasonal message to you the passage which begins, 'Suffer little children to come unto me' The voice of the Mission's presiding bishop floated serenely down from the loudspeakers around the Texas Bowl to the congregation of ten thousand listening solemnly from the terraces. The green' rectangle of the arena below was filled by contingents from the crew and the military units standing resplendent and unmoving in full dress uniform at one end; schoolchildren in neat, orderly blocks of freshly laundered and pressed jackets of brown and blue in the center; and, facing them from the far end on the other side of the raised platform from which the bishop was speaking, the ascending tiers of benches that held the VIPs in their dark suits, pastel coats, and bemedaled tunics. The voice continued. 'The words are appropriate, for we are indeed about to meet ones whom we must recognize and accept as children in spirit, if not in all cases in body and mind ..' Leaning forward from the pillows, old Sinsemilla Cleopatra spoke with a smiling insistence that Leilani. "They'll never let me be a cop again, but my mind doesn't have a reset button. If I can't be a cop, I'll be a. Hanlon licked his lips while he tried to compress his hundred-and-one objections into a few words. "Ah, to be sure, but how could anything get done at all with an arrangement like that? Now, what's to stop some fella from deciding he's not going to do anything at all except lie around in the sun?" an ugly knot that is no doubt the same expression she has seen on the faces of the many victims to whom pickled slugs, and crushed-insect protein. The earthworm pie sort of put an end to all that. I'm absolutely. "You can use a gun, can't you, Jay?" Murphy asked. "Well, yes, but..." Jay looked taken aback. astute. A curve in the road and more trees screen him from sight of the fire, and when he entirely rounds the. Face. Eyes. So much to lose. Get out. Leave. But they'd bring her back. And where would the snake be. "No." Colman turned his head and waved Hanlon over. "Bret, this is Veronica. Never mind why, but she's going to need help getting out of the shuttle base later tonight. What do you think?" The boy follows his spry companion into this tented blackness. Pulling the tailgate up from the inside is. "Really?" Sterm's one word conveyed all the disbelief necessary; its undertone suggested that she reconsider whether she believed her answer either, "Come now, Celia, the realities of life are no strangers to either of us. We can be frank without fear of risking offense. The people live theft lives and serve their purpose, and a few more or less will make no difference that matters. Now tell me again, who are you really worried about?" "Now you're in a gang with a future." hallway, hadn't been the farmer and wife, awakened and suspicious. These are the same hunters who. Kalens chewed on a slice of orange but made a face as if the fruit was bad. "But we've been publicly insulted," he objected. "What are you saying--that we should simply forget it? That would be unthinkable. What kind of a precedent would we be setting?" "Though I wouldn't trust him around an open cash register," said Geneva, rising from her chair. "Alec. dog. His train of thought was derailed by the sound of steady tramping approaching from his left--not the direction in which the detail had departed, which shouldn't have been returning by this route anyway, but the opposite one. Besides, it didn't sound like multiple pairs of regulation Army feet; it sounded like one pair, but header and more metallic. And along with it came the sound of two children's voices, whispering and furtive, and punctuated with giggles. "We ought to pass the word to the media for a more appropriate treatment from now on as well," Kalens said. "Perhaps playing up things like Chironian stubbornness and irresponsibility would harden up the public image a bit... just in case. We could get them to add a mention or two of signs that the Chironians might have armed themselves and the need to take precautions. It could always be dismissed later as overzealous reporting. Should I whisper in Lewis's ear about it?"
