"Sterm?" he repeated numbly. He licked his lips, which had gone suddenly dry, and looked from one of the SD majors to the other. "You mean he's already in there?".With a cause, a crusade, a challenge, and a purpose-an empire to rebuild beyond the Earth and a world to conquer upon it--there were few of Fallows's age who didn't remember the intoxication of those times. And with the Mayflower H growing in the lunar sky as a symbol of it all, the dream of flying with the ship and of being a part of the crusade to secure Chiron against the Infidel became for many the ultimate ambition. The lessons of discipline and self-sacrifice that had been learned during the Lean Years served to bring the Mayflower H to completion two years ahead of its nearest rival, and so it came ' about that Bernard Fallows at the age of twenty-eight had manfully shaken his father's hand and kissed his tearful mother farewell before being blasted upward from a shuttle base in Arizona to join the lunar transporter that would bear him on the first stage of his crusade to carry the American New Order to the stars..Bobby's Honda was parked next to a collection bin for Salvation Army thrift shops..Chicago once. . . ." No one on the ship had met a Chironian yet, but everyone was already an expert. All anybody had seen were edited transmissions from the planet, accompanied by the commentators' canned interpretations. Why couldn't people realize when they were being told what to think? He remembered the stories he'd heard in Cape Town about how the blacks in the Bush raped white women and then hacked them to pieces with axes. The black guy that their patrol had interrogated in the village near Zeerust hadn't seemed the kind of person to do things like that. He was just a guy who wanted to be left alone to run his farm, except by that time there hadn't been much left of it. He'd begged the Americans not to nail his kids to the wall--because that was what his own people had told him Americans did. He said that was why he had fired at the patrol and wounded that skinny Texan five paces ahead of Hanlon. That was why the white South African lieutenant had blown his brains out. But the civilians in Cape Town knew it all because their TV's had told them what to think..No, pup, no, no! Out, pup, out! Jarvis appeared Suddenly in the doorway beside Chaurez. "Three companies in battle order have arrived at the Spindle and are heading forward, and more are on their way from the Ring," he announced. "Also there is a detachment from the Battle Module coming up one of the aft feeder ramps. They must be coming back to close the lock." "Detail... halt! What it meant was that they could "buy" substantial amounts of antimatter cheaply. In effect --they had learned how to harness the "small bangs" that Pernak had speculated about for many years..Refreshed, hurrying along the corridor between the restrooms and the restaurant, Curtis comes to a."Easy, easy now," Micky counseled, still on her knees, making placating gestures with her hands. 'What about his adjutant?" Sirocco asked..On the threshold, Karla and the politician embraced. Even in the fading light of dusk, and further. "Yes--some kind of industrial complex, wasn't it?" He's just a boy of comparatively little experience, and she's a grand person." "Oh." Jay set the painting down by the wall and frowned at it as if he had just noticed it for the first time. "I thought that might look nice in my room." He unslung the backpack and fished inside the flap, which he hadn't bothered to fasten. "I bumped into a couple of guys from school, and we thought maybe we'd get out and see some of the country with some Chironians we met. There's a lot more of it around here than inside the GC module. So I got these." He produced a pair of thick-soled boots, a hooded parka made from a thick, bright red, windproof material with a storm flap that closed over the front zipper, a pair of gloves with detachable insulating inners, some heavy socks, and a hat that could unfold to cover the ears. "We were thinking of going to the mountains across the sea," he explained. "You can get there in a flyer from Franklin in about twenty minutes." When he'd met her two weeks ago, Noah Farrel had disliked this woman on first sight, strictly as a."You'd better mean it," Shirley warned. "There's nothing worse than trying to spend money you don't have. It's like stealing from people..Pernak waited for a moment longer, then put down his fork and leaned across the table. "On Chiron, wealth is competence!" he said. "Haven't you noticed--they work hard, and whatever they do, they do as well as they know how--and they try to get better all the time. It doesn't matter so much what they do as long as it's good. And everybody appreciates it. That's their currency--recognition, as you said . . . recognition of competence." He shrugged and spread his hands. "And it makes a lot of sense. You just told us that's what everyone wants anyway. Well, Chironians pay it direct instead of indirectly through symbols. Why make life complicated?". "Believe in life after death?".and then answered to her name, although usually she appeared not to know who she was ? or to care..admit he smelled better than your average corpse." .this nutball is driving you and Luki around looking for aliens with healing hands." "Bring one along. A forty-five or something like that would be best, if you've got one." Driscoll had taken Shirley up on her invitation to get in touch when he got down to the surface, and she had asked him along to the party in Franklin, at the same

time telling him to feel free to bring anyone he wanted. So Driscoll had invited Colman, Swley, Maddock, and Stanislaw, who among them had persuaded Sirocco to come too, and Sirocco had suggested bringing some of the girls from the Mayflower II. Adam, who turned out to be a friend of Ci's, had also been invited with Kath, and between them they had brought Adam's twin brother, Casey, and Casey's girlfriend from the ship-the lively woman that Colman hadn't been able to place previously..As Rickster had warned, Laura was in one of her private places. "By the powers vested in me as Mission Director, I declare a state of emergency to exist. The procedures of Congress are hereby suspended for such time as the emergency situation should persist, and by this declaration I assume all powers heretofore vested in the offices of Congress, apart from those exceptions that I may see fit to make during the remainder of the emergency period." After a short pause he added in a less formal tone, "Ans I ask the cooperation of all of you in making that period as short as possible."."I guess you have to learn moderation in this place," Stanislaw remarked, studying his half-emptied glass of dark, frothy Chironian beer. He shook his head slowly. "You know, this sounds crazy but sometimes I wish they would make us pay for it."."Thank you, Ms. Donella. You're as wonderful as I just knew you were when I first saw you."..Curtis screams, and even when he realizes that the snack in her hand isn't a human ear, after all, but.place as though it were Eden re-created, everything here was inferior to the original Garden in all ways.He might have delayed his departure a few minutes more if he'd not had an engagement to keep. He wanted to allow the people from Earth to pursue their own pattern of living without disruptive influences for the immediate future, and possibly to make such an institution permanent if it suited enough people to do so. To Jean the announcement had come as a godsend, and to many others as well, if the amount of popular support that had materialized from all sides within a matter of hours was anything to go by. Why couldn't everybody see it that way? she wondered. It was so obvious. Why were there always some who were obstinate and valued political interests before what common sense said would be for the common good, such as Kalens, who even now was reacting to Lechat as a threat and rallying his own followers to action?.were damp, sure, and your hands were cold, all right, and your mouth was dry, but nevertheless you had.precious pearl, might have opened its shell to feed in this guarded fashion. "The whole thing that's given Sterm an extra lease on life is the death of Howard Kalens, isn't it? Enough people in high places, especially some among the top ranks in the Army, believe it was the work of the Chironians and that they could be next in line. So they're clustering around Sterm for mutual preservation. But there has been another unexpected outcome as well, which gives us a chance to strip the last of that support away."..mad, insane.
