They mingled with the bustle going on around the house and all through the ground floor, and eventually came together again upstairs, outside the door leading through to the rooms that bad formed the Kalenses' private suite. After a second of hesitation he added, '-that's what Eve and I are going to do.' "This kind of thing always starts with 'love yourself.' ". Lechat didn't respond immediately. Eve Verity elaborated. "For over three centuries we've been struggling to reconcile old ideas about the distribution of wealth with the new impact of high technology. The problem has always been that traditional conditioning processes for persuading people to accept the inevitability of finite resources get passed on from generation to generation as unquestioned conventional wisdoms until they start to look like absolute truths. Wealth was always something that had to be competed and fought for. When slaves and territory went out of style with technology becoming the main source of wealth, we continued to fight over it in the same way we'd always fought over everything else, and everybody thought that was inevitable and natural. They couldn't separate the old theories from the new facts." Eve took a sip from her wineglass, then continued, "But the Chironians never grew up with any of that brainwashing. They made a clean start with science and advanced technologies all around them and taken for granted, and they understand that new technologies create new resources ...without limit.".. remarked with a delighted leer on his face. Pernak and lay waited by the door for lean and Marie to appear.. you're in.".. A long silence went by while they took it all in. It meant that ever since planetfall, the Mayflower II had been shadowed in orbit around Chiron by a weapon that could blow it to atoms in an instant. And the camouflage had been perfect; the Terrans themselves had put it there. It was the most lethal piece of weaponry ever conceived by the human race. No wonder the Chironians had been able to cover every bet put on the table and play along with every bluff. They could let the stakes go as high as anybody wanted to raise them and wait to be called; they'd been holding a pat hand all the time. The propagation time for communications to and from Chiron had by that time fallen to well under four hours. "But would it serve any useful purpose? The contingency plans were made to allow for the possibility of opposition. Well, there hasn't been any opposition. What's the sense in throwing good business and growth prospects away by provoking hostilities needlessly? We can acquire Franklin simply by walking in.
